PRE-APPEAL BRIEF REQUEST FOR REVIEW

Sir:

Pursuant to the USPTO Official Gazette “New Pre-Appeal Brief Conference Pilot Program”, and in view of the Notice Of Appeal and Pre-Appeal Brief Request For Review Form PTO/SB/33 submitted herewith, Applicant respectfully requests review of the Office Action, and submits the following remarks in support thereof.

I hereby certify that this correspondence is being transmitted via facsimile to: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450, (571) 273-8300, on:

Applicant respectfully submits that the instant Office Action is deficient, in that it is contradictory on its face. Specifically, page 9 of the Office Action concedes that "Matsushita (modified by AAPA) as [a] whole does not explicitly disclose wherein the plurality of division information is hierarchized and the division positions are added in a case that the plurality of division information is generated in the generation step in correspondence with a plurality of item groups." Office Action, page 9.

However, page 5 of the Office Action takes a contradictory position, namely, that the AAPA does in fact disclose hierarchizing a plurality of division information in the case that the plurality of division information is generated in correspondence with a plurality of item groups:

"The Examiner respectfully disagrees [with Applicant's traversal of the assertion that hierarchizing a plurality of division information in the case that the plurality of division information is generated in correspondence with a plurality of item groups is well-known in the art]...[I]t is clear to the Examiner that AAPA teaches to add the changing point layers to create the division result which reads upon the claimed limitation." Office Action, page 5.

Applicant therefore respectfully submits the Office Action is contradictory on its face, such that there is a clear deficiency in the *prima facie* case in support of the rejection.

As background, the previous Office Action dated February 6, 2009 conceded that the above feature was not shown in the AAPA, but relied on Official Notice. In an Amendment dated May 6, 2009, Applicant traversed the assertion of Official Notice, and requested that the next Office Action include documentary evidence to support the contention. See page 12 of the Amendment dated May 6, 2009, which cites to MPEP §

2144.03 ("If applicant adequately traverses the examiner's assertion of official notice, the examiner must provide documentary evidence in the next Office action if the rejection is to be maintained.").

The instant Office Action (page 9) again concedes that the AAPA is inadequate for the reason that it lacks the above feature, and again asserts that Official Notice can be taken. But in support of documentary evidence for Official Notice, the Office Action points right back to the same inadequate AAPA. See Office Action, pages 4 and 5. Applicant therefore submits that the Office Action clearly contradicts itself.

This contradiction was pointed out in a Response To Final Office Action dated December 14, 2009:

"Applicant respectfully submits that reliance on the AAPA contradicts the concession at page 9 of the Office Action, to the effect that the AAPA does not disclose the feature." See Response To Final Office Action dated December 14, 2009 at page 10.

However, the Advisory Action makes no reference to this contradiction, and instead maintains that the final rejection was entered correctly.

Applicant submits that in view of this contradiction, it is difficult to formulate a response, for the reason that the basis for rejection is unclear. Applicant therefore respectfully requests that the present Office Action be vacated, and that a new Office Action be issued.

Applicants' undersigned attorney may be reached in our Costa Mesa, California office at (714) 540-8700. All correspondence should continue to be directed to our below-listed address.

Respectfully submitted,
